

Lower Your Energy Costs by Switching to Natural Gas!

We're working to extend natural gas service to your neighborhood.* Converting to safe, reliable, affordable natural gas will increase your home's efficiency and lower your energy bills. Thank you for your interest in switching to natural gas.

Enjoy the Comfort and Convenience of Natural Gas

- Warm your home for less. Calculate your savings at southjerseygas.com/calculator
- Peace of mind knowing natural gas is ready to perform when you need it
- Precise temperature control when cooking
- No tanks to refill, no delivery schedules and no prepayments
- Versatile: Use natural gas for heat, hot water, clothes dryers, fireplaces, outdoor firepits, pool heaters, generators and tank-free grilling
- Efficient - helps reduce energy consumption
- 0% Financing Available

How Do I Get Started?

☐ Apply for service.

- Online: southjerseygas.com/apply
- Phone: 1.800.934.9183

Linda 609-500-1592

Once your application is approved, the South Jersey Gas Design Team will determine the best path for your installation. You may see the team collecting field information from your property to plan your design.

☐ Hire a heating and cooling contractor.

A heating/cooling contractor or plumber will perform all of the installation work inside of your home. For your convenience, enclosed is a list of SJG Participating Contractors. If you choose to do the work yourself, you are required to complete a "self-install" form stating that you agree to conform to the codes of your township or municipality. Your Sales Representative can provide the form.

☐ Permit approvals.

South Jersey Gas will apply for state, county and/or municipal permits, which have varying approval times.

☐ Mark out private utilities.

It is the homeowner's responsibility to accurately mark out any underground lines that have been privately run with flags or marking spray (ie. water, electric and sewer lines, septic systems, invisible pet fences, fiber optics and telephone lines, all lines to outbuildings, and sprinkler systems). Visit southjerseygas.com/videos and watch our video titled "Markouts" to learn more about marking out your property.

☐ Meter installation.

SJG will install the service line to your home and the meter on your property.

☐ Your first bill.

At the time your service line is installed and your meter is set, you are considered an SJG customer and will begin receiving bills. On your first bill (or the one subsequent to that), you will see the following:

- One-time fee of \$45.00 (\$7.00 account activation fee, \$38.00 turn on fee)
- A customer charge, usually ranging between \$8.00 and \$10.00 per month (in SJG bill details)
- A charge for natural gas used (listed as Delivery Charge & BGSS in SJG bill details)
- A security deposit. This can be waived with a "letter of credit" from another utility company. Once you've obtained this letter, submit it with your first bill or fax it directly to our Customer Care Center at 1.609.567.2684.

☐ Sign up for My Account.

Visit myaccount.southjerseygas.com and register to view and pay your bill, opt for Paperless Billing and/or Auto Pay and more.

Frequently Asked Questions:

How much will it cost to have natural gas installed to my home?

That depends on the distance your home is from the gas main and the natural gas appliances you select. For many of our customers, the service line is installed free of charge up to the location of our meter.

What's the first step to getting gas to my home?

Contact your local Sales Representative who will explain the process, answer all of your questions and take your application.

Is financing available?

Yes, when you use an SJG Participating Contractor, you may be eligible for 0% equipment financing. Ask your Sales Representative for more information.

Can I install the equipment myself or have a friend or relative do it for me?

Yes, you can, but we recommend using a licensed contractor who will take care of getting the required permits for your municipality or township, and professionally install your new equipment. (See enclosed list of SJG Participating Contractors.) If you do choose to install the equipment yourself or have a friend or relative complete the work, you will not be able to take advantage of SJG financing offers.

Can South Jersey Gas recommend a contractor?

No, however, a list of SJG Participating Contractors is included in this packet or you can use any licensed contractor you prefer. SJG Participating Contractors are carefully selected and meet business, financial and licensing standards. And, SJG financing offers are only available through SJG Participating Contractors.

Can a contractor help me with the removal of my existing tank (oil/propane)?

Yes, a contractor can manage the removal. If your current equipment includes a leaking underground oil tank, you may be eligible for a grant from the State of New Jersey. Visit https://www.nj.gov/dep/grantandloanprograms/sr_ustru.htm. For propane tank removal, consult your contractor.

Can I keep my existing propane appliances?

In most cases, conversion kits are available. We recommend that if your equipment is more than 10 years old, you consider upgrading to high efficiency equipment to take advantage of additional savings.

Where will South Jersey Gas install my gas meter?

Your Sales Representative will work with you to find a spot that meets the requirements.

Will the installation of natural gas create any disruption to my property?

Our crews will do their best to minimize any impact to your property. However, any disturbances caused by excavation will be restored within a few weeks after the work is completed. Please keep in mind, due to weather, we may only be able to temporarily restore the area until a later date, when full restoration can be done. For example, new asphalt can be applied anytime so long as the weather permits; laying new topsoil and planting seed can only be done between April and October. And concrete can only set when the temperature is above freezing.

Do you offer rebates or incentives?

Rebates through the NJ Clean Energy Program and Federal Tax Credits may be available for qualifying equipment. See the enclosed Rebates and Financing insert and consult with your accountant to learn more.

APPLICATION FOR SERVICE

RESIDENTIAL

(Please Print or Type)

_____ (Name/Company), hereinafter referred to as CUSTOMER, applies to South Jersey Gas, hereinafter referred to as COMPANY, for natural gas service to be installed to the residence (or residences of the development) identified under SERVICE ADDRESS listed above and hereinafter referred to as ADDRESS.

Upon receipt of this application, the COMPANY will begin the process of determining availability of service.

- Approval of natural gas service will be determined by the COMPANY at the discretion of the COMPANY.
- If the COMPANY determines distribution mains need to be extended or reinforced, APPROVAL OF THE APPLICATION will further depend upon the COMPANY'S decision to extend or reinforce such main.

The CUSTOMER hereby applies for natural gas service for the appliances indicated below, and further agrees such appliances will be installed at the ADDRESS (at CUSTOMER expense) if service is approved.

Gas House Heater # _____	Gas Range # _____	Gas Fireplace Logs # _____
Gas Water Heater # _____	Gas Dryer # _____	Gas Light # _____
Gas Pool Heater # _____	Gas Grill # _____	
(# = total number appliance applied for.) Other (Describe) _____		

As part of this application, the CUSTOMER will provide the COMPANY with a signed, itemized contract indicating the cost of the above equipment and its installation.

IF NATURAL GAS SERVICE IS APPROVED, the CUSTOMER: (By initialing, CUSTOMER acknowledges and agrees to each condition listed)

- ___ Will accurately mark out any underground lines that have been privately run. These shall include but not be limited to water, electric, sewer, septic, invisible pet fences, fiber optics and telephone lines, all lines to outbuildings and sprinkler systems.
- ___ Agrees that SJG and/or its subcontractors will not be responsible for any damages that may occur to underground lines or systems that are not accurately marked out by the CUSTOMER.
- ___ Will be billed for service when the meter is set at the property. Note: The meter will be set at the property at the time the natural gas service line is installed. Applicant agrees to connect natural gas equipment within 90 days of meter installation. If the applicant does not, the COMPANY reserves the right to bill said applicant for the total cost of installation.
- ___ May be required to provide a security deposit equal to two months of average estimated billing at the applicable rate, but not less than \$25.00.
- ___ May be required to contribute toward the construction cost of service and main.
- ___ Will be billed a \$45.00 activation charge for each meter activated.

Applicant agrees to connect natural gas equipment within 90 days of meter installation. If the applicant does not, the COMPANY reserves the right to bill said applicant for the total cost of installation.

This application is neither an agreement to provide gas on the part of the COMPANY nor is it an agreement for the CUSTOMER to install appliances until the CUSTOMER receives approval from the COMPANY and the COMPANY obtains all necessary permits.

CUSTOMER is advised NOT to install natural gas appliances/equipment until approval is confirmed as outlined above.

Agreement to provide gas service is subject to the terms and conditions of the COMPANY tariff and any charges therein approved by the New Jersey Board of Public Utilities.

Lower Your Annual Heating Costs Switch to Natural Gas

Take a look at the average cost comparisons between natural gas and other fuel sources.

Then, calculate your potential savings at southjerseygas.com/calculator

Savings—Natural Gas vs. Oil

Annual Heating Cost

Natural Gas	\$1,129
Oil	\$1,954
You Save with Natural Gas	\$825 or 42%

Savings—Natural Gas vs. Propane

Annual Heating Cost

Natural Gas	\$1,129
Propane	\$2,969
You Save with Natural Gas	\$1,840 or 62%

Savings—Natural Gas vs. Electricity

Annual Heating Cost

Natural Gas	\$1,129
Electricity	\$2,989
You Save with Natural Gas	\$1,860 or 62%

Savings—Natural Gas vs. Heat Pump

Annual Heating Cost

Natural Gas	\$1,129
Heat Pump	\$1,429
You Save with Natural Gas	\$300 or 21%

Average annual savings when switching from alternative heat sources and assume use of high efficiency natural gas equipment. Actual savings vary based on usage and energy source. Fuel comparison based on October 2021 (electric rates) and January 2022 (natural gas, oil, propane rates) EIA data. Visit southjerseygas.com/switch to calculate individual savings. Availability of natural gas is not guaranteed and contingent upon household proximity to natural gas connection. Visit SJGSaveEnergy.com for financing and rebate details.
